"In the Fall of 1892 Mrs. F. S. Miller arrived in Korea to begin her life as a Missionary. For nearly eleven years God used her for this work and then He called her to a higher service.

"It is eminently fitting that this Mission should pass resolutions upon the death of this devoted worker.

“Mrs. Miller was first of all a wife and mother, and her home was a centre from which radiated an influence felt alike by both Koreans and foreigners. When at Mrs. Miller’s one always felt at home. Mrs. Miller loved Korea and she loved Koreans, and the Koreans loved her in return.

“She had a good knowledge and use of the Korean language, and she gave herself freely as her strength permitted to the people she had come to help.

“For several years her health was not good and she suffered much, but she never complained, and through it all was manifest a calm and simple trust in her Heavenly Father.

“She was beloved by all, and her going—although to her a great gain—is to us an unspeakable loss.

“We extend to her husband and motherless children our sincerest love and sympathy, and pray that behind the sorrow and affliction may be seen the tender heart of a loving God.

(Signed) GRAHAM LEE,
SUSAN A. DOTY.”

The Committee on Resolutions on the deaths of Rev. and Mrs. W. V. Johnson reported. The report was adopted, ordered spread on the minutes and copies sent to the relatives. It was as follows:

“During the last year it has seemed good to our Great Captain to recall two of His commissioned ones who were about to enter upon their life work among us and who had before them, as we thought, the promise of long life and rich, beautiful service.

“Mrs. Emily Hartman Johnson went Home from Kobe, Japan, on the thirteenth of January as she was on her way to the field. Walter Virgil Johnson, her husband, after two months of brave effort in the midst of indescribable loneliness followed her on the eighteenth of March from Seoul, Korea. It is hard for us to understand such dispensations, so much to do and so few to do it, and yet these called away!

“Mrs. Johnson we knew best from what we had seen of her in her husband's life. From that we know her to have been one of those clean, pure, strong characters upon whom one instinctively leans. Mr. Johnson leaned on her in a way beautiful to see while she was with him, but peculiarly pathetic when she was gone. Perhaps the best word said

of her was that little tribute of her husband when he lay almost within the dark shadow, and turning to the nurse he said softly, 'I loved a little girl once and in all the years we knew one another not one wrong or unkind word ever passed between us.'

'No one touched Mr. Johnson's life who did not realize his steadfast faith, but better than that was his unselfishness. In the midst of his own great sorrow which he seemed to feel as it is not given to many of us to feel, and in all his loneliness his thought was always for others, and especially in his last illness his thought seemed to be always, not of his own poor, aching body, but for others lest in caring for him they should be overtaxed.

'We wish to express our own great sense of loss and our deepest sympathy and love for those who mourn at home, especially for those parents who gave them to Him to be used as He thought best. The world is better because they have lived, and they are not dead, only sleeping.

'We recommend that these resolutions be spread upon the Minutes of the Mission and that copies be sent to Mr. and Mrs. Johnson's parents.

(Signed) CHARLES ALLEN CLARK,
C. C. VINTON, Committee.

REPORTS.

II.—Treasurer's Report.

The treasurer has nothing new to report to the Mission except the increase of his duties consequent on the steady increase from year to year of the number of missionaries whose salaries he pays and whose freights and charges he calculates. During the past year he handled a considerably larger amount of actual cash, by reason of the two payments, aggregating nearly 60,000 yen, received from the palace officials in settlements for the Chung Dong property. Beside this, however, nearly 100,000 yen worth of bills of exchange had to be sold to supply the further needs of the Mission, an indication how much of the foreign mission contributions of our Church is expended upon this field.

Very respectfully,
C. C. VINTON.

III.—Report of Finance Committee.

During the year the Finance Committee has made decisions as follows:

1. On the question raised by Fusan Station of the use by Stations or individuals of unused balances already drawn from the Mission treasury before the expiration of the financial year, the Finance Committee decides that each Station or individual must determine for its self or himself whether the amount on hand practically belongs to the work of the closing year or to that of the year just beginning and account for it accordingly.

If it is decided that it belongs to the new year that much less should be drawn during this year instead of refunding it to the treasurer so that his book keeping may not be involved in the transaction, but notice of the amounts must be sent to him. In this way the intention of Sec. 77 of the Manual will be achieved and the amount will practically have reverted to the Board treasury.

Concerning balances still left undrawn in the hands of the Mission Treasurer, they have already lapsed to the Board

and cannot be used unless the Board in answer to a Mission request adds the amount to the appropriation for the year.

2. The cut on appropriations as allowed by the Board was distributed among the Stations and Mission items. Two items not put by the Mission and Board among the cuttable items were by the Committee so considered and so reserved with Classes I, II and VIII from the cut.

These were personal house rent of missionaries not provided by the Board with residences, and the salaries of Japanese nurses employed under contract, these replacing a Board appointed American nurse at decidedly less expense.

3. As has been the rule in recent years new and restored work was cut at double the rate on old work, but in this matter the committee would recommend

That the rule heretofore in use that new and restored work be cut at twice the rate old work is cut be repealed and that hereafter all work on the estimates sheets of Mission not specifically exempt be on a par for the purpose of the cut.

4. We would also recommend that items of personal house rent for missionaries not provided houses by the Board be exempt from cut inasmuch as it is in lieu of the house which the Board furnishes to its missionaries and is not related to "native work" and should be as untouchable as salaries in gold.

Also that the Committee be authorized to call the attention of the Board to the propriety of putting the item "Rent for missionary houses" in some uncuttable class.

5. The books of the Treasurer were audited in due form, found correct, and the fact attested to the Board.

6. The Committee begs to recommend the following schedule of salaries as the maximum to be paid to Native Workers, the increase being due to the great rise in the cost of living in all parts of the country.

Native Helpers	15 yen per month.
Language Teachers and Literary Assistants	12 yen.
Bible Translators	24 yen.
Bible Women	8 yen.
Literary Assistants of more than eight years service	15 yen.

Respectfully submitted,

E. H. MILLER,
Secretary of Committee.

Respectfully submitted,
F. S. MILLER,

VI.—Report of the Bible Committee.

I. At the March meeting the Secretary reported the sales of Scriptures during 1902 as follows:

Seoul Edition of the N. T.	4437
Japanese “ “ “ “	1838
Portions	23156

II. At the regular June meeting (held July 17th) the Board of Translators reported, under date of June 19th, that they had held 141 sessions during the mission fiscal year, and had revised from I Cor. 7th to the first part of II Thessalonians.

“In the discussion which followed the reading of this report,” to quote from the minutes, “a very general feeling of dissatisfaction with the progress made by the Translators found strong expression. It was felt to be desirable that Translators should be freed as much as possible from other duties, and it was unanimously resolved;—‘That a sub-committee be appointed to formulate resolutions to be presented to the Methodist Episcopal Mission and to the Presbyterian Mission asking that their representatives on the Board be more entirely set free for translation work.’” The Chairman named Messrs. Kenmure and Moose as the sub-committee.

Recognizing the fact that our representatives on the Board of Translators have been ready to give their full quota of time to translation work, nevertheless, we recommend

That the Mission emphasize the fact that in its appointment of work to Dr. Underwood and Mr. Gale Bible Translation is to be given the first consideration and all other work assigned to be carried on so as not to interfere with the very best effort upon Bible Translation.

III. A letter was read from Mr. Loomis saying that the American Bible Society had approved the Constitution adopted by the Bible Committee Sept. 17th 1902 “with the understanding that Article VII is amended by the omission of Section 3,” “and with the further understanding that the right of the American Bible Society to a proportionate share in the appointment and removal of the joint agent be officially recognized by the British and Foreign Bible Society and the National Bible Society of Scotland.” Also a letter from the two British Societies agreeing to these changes was read.

Article VII Sect. 3 arranges for the reprinting of the Bible Committee versions "with alterations in the terms for God, Spirit, and Baptism."

It was agreed that Article VII Sect. 3 be struck out and that in Article VIII the date of making the Annual Report be changed from October to February as the Societies desire their reports to close with the fiscal year. Also that the Constitution as a whole be adopted and that, with the approval of the Bible Societies, the new Constitution go into effect January 1st, 1904. The Constitution as so changed comes before the Mission for adoption and your Committee recommend such action.

IV. At the June meeting contracts were let for the printing of

15000	N. T.	No.	4 type	(large type)
15000	" "	"	5 "	(small type)

each type in two styles of page and in various bindings, including the more expensive styles.

Also for 10,000 each of the Gospels and Acts. Also it was agreed to print an edition of 5000 Lukes in the cheapest form practicable, so that they may be sold for one cent per copy for evangelizing purposes.

V. The following action was taken: "Inasmuch as the Presbyterian Council, the Methodist Mission, the Korean Religious Tract Society, and all the religious newspapers in Korea, have adopted the system of spelling Korean known as the Gale system, and as we as a committee approve of the same, and believe that there will arise no demand for editions in the old system:—Therefore, be it resolved that all the Korean publications of the Bible Societies be published in this system." The motion was unanimously adopted.

VI. Your committee also recommends that the Mission place on record its very great appreciation of the presence at its meetings for some years past of Rev. H. Loomis, the Agent of the American Bible Society. His practical and spiritual counsel has been most helpful and it is with deep regret that we hear from him that this is probably his last visit to us, the arrangement by which the three Bible Societies are represented by one common agent making it unnecessary that he should continue his oversight of the field. We would express

to the American Bible Society our great desire that it make provision for his presence with us at least once a year.

VII. As there is a possibility that the revision of the N. T. may not be finished in time to be used in the large editions lately ordered printed by the P. E. B. C. we direct the Special Bible Committee to endeavour to see that the edition of the N. T. in which the unrevised translations are used be limited to a total of 7000 in the less expensive bindings.

Committee } S. A. MOFFETT,
{ F. S. MILLER.

VII.—Report of Apportionment Committee.

We desire to call attention to the facts that

1. The assignment of work to individual missionaries is understood as in the order of relative importance.
2. All assigned work shall be under the direction of the Station.

We recommend that in answer to the communications of the Australian Presbyterian Council "*Re* Division of Territory with the American Presbyterian Mission (North)" that we make the following reply:

That the statement of Mr. Robert E. Speer is not an official statement of either this Mission or our Board.

We beg leave to suggest the following plan as the one which appears to us most wise:

That the seven districts of Eul San, (을산), Ki Chang (기장), Eun Ryang (은양), Ku Chai (거제), Chin Hai (진해), Ko Sung (고성), and Ryang San (량산), (the village of Pum Ku (범구), excepted), be the exclusive territory of the Australians.

That the seven districts of Kim Hai, (김해), Chil Won (칠원), Milyang. (밀양), Yungshan, (령산), Eung Chun, (웅진), Changyung (창령), and Changwon (창원), (except within 15 *li* of Masanpo) be the exclusive territory of the Americans.

That the remaining counties of South Kyung Sang Do be unassigned until work shall develop.

That in the further development of the work we would suggest that the Australian Mission direct its efforts toward the southern half, and that the American Mission direct its efforts to the northern half of the unassigned territory, and we express the hope that in case work of the American Mission arises in the southern half of the unassigned territory, the Fusan Station may see its way clear to turn the work over to the Australian Mission, and that in case work of the Australian Mission arises in the northern half of the unassigned territory, the Australian Mission may see its way clear to turn the work over to the American Mission.

We recommend that Messrs. Hall, Bruen and Sidebotham be a committee to represent the views of the Mission to the Australian Mission, and that if the above plan is acceptable to the Australian Mission we instruct this Committee to present the matter to the Board, asking its sanction of the plan.

Report of the Educational Committee.

1. We recommend the appointment of Dr. Underwood, Dr. Baird and Mr. Gale as a Committee on Terminology, they to co-operate with such other bodies as may be interested in the same subject with a view to preparing a list of Scientific and Technical Terms so as to secure uniformity in use throughout Korea.

2. We recommend that Dr. Baird, Mr. Gale and Mr. E. H. Miller be a committee to prepare a tentative course of study for Boys' Primary Schools and Academies, copies of this to be printed and given general circulation.

3. We recommend that Miss Best and Miss Barrett be appointed a committee to prepare a Tentative Course of Study for Girls' Primary Schools, and Advanced Schools for Women and Girls, copies to be printed and given general circulation.

4. We would call attention to the establishment of or spontaneous springing up of mixed schools, with a view to recommending great caution, that they may not be allowed to grow into a system of co-educational schools. We would recommend their discouragement rather than their encouragement.

5. Recognizing the need Normal Class Instruction. We recommend the preparation of a Course of Study for Teachers of Primary Schools and that the committee on Course of Study for boys' Schools, Dr. Baird, Mr. Gale and E. H. Miller, be the committee.

SEOUL.

6. We recommend the approval of the project for the removal of the Girls' School Buildings and their re-erection on the site reported by the station.

7. Concerning the project for the erection of the main building for the Intermediate School. We recommend.

(a) That until the further development and growth of the school render more imperative the erection of the Main Building, the needs of the school be met by the erection of a smaller building which shall afterwards become a subsidiary building.

(b) We also recommend that this building, not to exceed 3,000 yen in cost be so erected that it may be used as Scientific Building when the Main Building shall be built.

(c) We also recommend the approval of the requests for 500 yen for repairing the building now occupied by Mr. E. H. Miller, for use as temporary class rooms, also the request for 50 yen for apparatus.

8. We recommend that Mr. Gale be again placed in charge of the Intermediate School with Mr. E. H. Miller as Assistant Superintendant and, that Mr. E. H. Miller be in charge of the Manual Labor Department.

9. We recommend the assignment of Mr. Moore to special work as Teacher in the Intermediate School for Boys and in the Girls' School.

10. We recommend that in the Seoul Station a committee be formed on Training Classes for Helpers with a view to the selection of a class of Helpers from whom after the completion of the 3 years course of study for Helpers a Theological Class may be formed.

FUSAN.

II. (a) We recommend that efforts be made for co-operation of Fusan and Taiku Stations and the Australian Mission in Training Classes for Helpers so that instruction covering the 3 years' Course of Study for Helpers may be given.

(b) We believe that the formation of a Theological Class at this time is premature.

12. While approving the project of a night School for boys in Fusan. We believe that the need of the Itinerating Evangelistic work makes this an inopportune time for the assignment of Mr. Smith to regular Boys' School work there.

SYENCHUN.

13. We recommend that special efforts be made to meet the "need" in the Syen Chun Station for the instruction of young women.

PYENG YANG.

14. We express our gratitude for the gift which as provided for the Anna Davis Manual Labor Department of the Pyeng Yang Academy.

15. We renew our action of last year approving the appointment of another man to the Pyeng Yang Academy.

16. We recommend the approval of the plan for beginning the Advanced School for Girls and Women in Pyeng Yang.

IX.—Report of Medical Committee.

I. We recommend the approval of Dr. Avison's request for Yen 550.00 additional expenses in the Severence Hospital.

II. We recommend the approval of Dr. Iwin's request for additional expenses in the Fusau Hospital, and salaries of Assistants up to Yen 500.00.

III. We recommend the approval of Dr. Iwin's request for Yen 400.00 additional expenses in Fusau Hospital from January to April, 1904.

IV. We recommend the approval of the project for Pyeng Yang Hospital, the cost to be Yen 10,000.

V. We recommend that Pyeng Yang Station secure the service of Dr. Follwell of the Methodist Mission for such Medical attendance as may be required, his bill to be met by the Mission Treasurer.

VI. We recommend the formation of all the practicing male physicians of the Missiou into a Medical Board to control

the issuance of certificates of proficiency to student assistants, this Board to draw up regulations, prescribe a course of instruction for, and conduct the examination of student assistants and certify to their attainments at the completion of their course.

VII. We recommend the approval of Dr. Sharrock's request for Yen 95.00 additional expenses of the Syen Chyun Hospital.

VIII. The approval of the various requests for additional funds is made, we believe, in accordance with the policy to which the Mission and Board have given their assent. But we feel that it is our duty to call the attention of the Mission to the large and increasing cost of the medical work. The ultimate aim of all our work must be the bringing of men and women to a knowledge of Jesus Christ, and their growth in Him, and the value of all our service must be judged according as it contributes directly to this end. As compared with other branches of missionary activity, we feel, if care is not exercised, that the medical work will receive more than its proportionate share of financial support.

XII.—Report of Committee on the Suggestion of having Annual Meeting Convene on Sorai Beach in 1905.

Your Committee recommends that as such a proposition would enable the Mission to hold its Annual Meetings in the summer months and thus reserve the early autumn for more direct and active work a committee be appointed to consider the question, to visit the ground and report next year.

Vinton in proof reading and in putting through the press of a large number of publications of various sorts.

1. That the Mission instruct its representatives on the Bible Executive Committee to use their influence to delay the introduction of the new spelling into the new edition of the New Testament and portions.

2. That the Mission suggest that the Tract Society postpone the general use of this system in their publications until more unanimity of opinion has been reached on the subject.

3. That the Mission elect a committee of three to bring the question of reform in spelling to the attention of the other missionary bodies, and those engaged in publications in the Korean language with a view to securing uniformity throughout Korea.

4. We recommend that a copy of these resolutions be sent to the secretary of Presbyterian Council of Missions in Korea.

XV—Report of the Committee on the Christian News.

I. During the past year the Christian News has been conducted by Mr. Gale as editor and Dr. Vinton as business manager. Mr. F. S. Miller, as assistant editor has edited the paper since Mr. Gale's departure in April.

II. As a rule the plan of assigning departments to various members of the mission has proven satisfactory. Nine out of the sixteen heads of departments have contributed as assigned them. The rest will, we trust, do so before the end of the year. Others have contributed very acceptable articles, and we hope that the fact that no department has been assigned will not prevent anyone from contributing.

III. Dr. Vinton reports that the circulation has increased from 335 to 400, the great obstacle to the growth of the last being the difficulty of securing its distribution through the country offices. Complaints to the postoffice department and the intercession of the American legation, have brought some hope of success in this part of the work. We recommend that efforts be continued, especially on the part of those engaged in country work, to increase the list of subscribers.

Details of receipts and expenditures could not be rendered to us by the business manager, but current receipts are re-

ported to have amounted to about 350 yen, which sum has met the ordinary current expenses aside from printing, and has left some surplus. The board has been drawn upon for 351.65 yen to meet printer's bills. In order to conform to custom we recommend that the finance committee of the mission be asked to audit all expenditures for the Christian News and report to the mission at the next annual meeting.

We nominate Rev. J. S. Gale as editor, Rev. F. S. Miller as assistant editor and Dr. C. C. Vinton as business manager of the Christian News.

As heads of departments from January 1, 1904 to January 1, 1905, we recommend the following:—

	CHARACTERS PER ISSUE.
Mr. Swallen, New Testament Sabbath School lessons,	1500.
Mr. Ross, Old Testament Lessons,	1500.

XXIII.—Report of Examination Committee.

We would call the attention of the Mission to the fact of the increasing number of those who make request to defer their examination a year, thus taking four or five years for the course which should be covered in three years.

The Committee has reached the conclusion that in the oral examinations those who fail to reach a grade of 60 % in either Conversation, Reading or Translation and Analysis should be conditioned on such subject, even though the average grade be above the passing mark. Those thus conditioned will be expected to take an examination on the conditioned subject before proceeding to the next year's examination.

The Committee expects to revise the course of study during the year and report to the next Annual Meeting.

The Committee expects to make provision for the written examinations to be given in June, the papers to be sent to the Committee for examination.

S. A. MOFFETT,
Chairman.

XXIV.—Report of Committee on Location of New Station.

The Roman Catholic persecutions in Whang Hai Province and sickness in Taiku prevented your committee from visiting Koug Ju and the Province of Chung Chong. Therefore we are not able to lay before you the information which we had planned to secure.

The Committee however is satisfied that the new station should be opened and recommend that Mr. F. S. Miller make special effort to visit the territory and that your committee be continued to report next year more fully upon the condition of the field, the best site for the station and plans for the opening of the same.

Chairman.

XXVIII. Report Upon the Conference of Missionaries in Korea in 1904.

During the interval of a year that has elapsed since the General Committee met in Seoul the various committees have been at work, trying to perfect the arrangements for the Conference. Difficulties of various kinds have been encountered, and for obvious reasons it has been impossible to work to the entire satisfaction of every one. The Executive Committee has held monthly meetings and it has been the endeavor of this committee to follow out as closely as possible the plans adopted by the General Committee. Every action that has been taken by this committee was thoroughly discussed and was passed by the consent of the entire committee present. In many cases the opinions of parties outside of the committee were asked and weighed in making the decisions.

The following six committees have been at work:—(1) Programme, (2) Local Arrangements, (3) Hospitality, (4) Publication, (5) Finance, (6) Transportation. The Executive Committee, as you understand, is composed of the chairmen of these committees.

We will take up the work of each committee in order to get a clear idea of the present status of the preparations for the Conference.

I. The Programme Committee. This committee held two meetings last fall and drafted a rough outline programme. The secretary, Mr. Hunt, took this to Pyeng Yang and with the other member of the committee living there, Mrs. Baird, prepared an outline programme, which he sent to the chairman at Seoul. The chairman and Mrs. Campbell, the members at Seoul, went over this programme and then presented it to the Executive Committee as an outline programme. The Executive Committee adopted it, after making some changes, and ordered a tentative programme to be printed for distribu-

tion. This was done, and while it was not and is not the desire of the Executive Committee to have in any degree an ecumenical conference, invitations were extended to certain persons outside of Korea to take part in the programme. It was not thought at all probable that any considerable number of these persons would be able to take part in the programme. The result justified our expectations, and only eight conditional acceptances have been received, including those who are to take part in devotional services. In addition we have been promised papers from some who cannot attend the conference on such subjects as "Missionary Work among Lepers" and "The Blind," &c. These papers can be used or not as we desire.

We accompany this statement with a programme with the names and subjects attached. It is in some degree tentative as yet. There are some interesting subjects that might be worked in, such as "Methods to increase Christian Social Fellowship between the Missionary and the Native Christian," and "Language Study, Methods and Experiences (the personal teacher, text-books, &c.)." We trust that by the end of the year we shall be able to have the programme complete and pretty nearly in a permanent form.

II. The Local Arrangements Committee. This committee has not had very much work to do as yet. They canvassed the ground and reported that they considered the best place to hold the Conference would be the First Methodist Episcopal Church in Chung Dong.

III. The Hospitality Committee reported on dates, and the Executive Committee set the date of the Conference from Sunday, September 18th., to Sunday, September 25th., inclusive. The committee prepared two addresses to the public, one a letter of information to missionaries in Korea and the other a letter to friends of missions outside of Korea. These were sent out by the committee to persons approved by the Executive Committee. Attempts have been made to secure rates from the hotels in Seoul, but the committee is not ready yet to report.

IV. The Publication Committee. Upon the recommendation of this committee stationery was printed for the use of the members of the Executive Committee.

The committee presented a form of announcement of the Conference for the newspapers, and a list of about one hundred publications to which the announcement should be sent. These were adopted by the Executive Committee, but upon motion are yet held back till we can learn whether the General Committee desires to have them published.

V. Finance Committee. Upon the report of this committee the Executive Committee decided to adopt and send out to the missionaries a request for subscriptions to defray current expenses. The form of request as presented by this committee was adopted. Upon a full vote of the Executive Committee Mr. Hugh Miller was elected Treasurer of the Conference.

The Executive Committee decided that all persons outside of Korea who take part in the programme shall be entertained during the continuance of the Conference; however, that it is not possible to pay any one's travelling expenses.

Upon motion the Finance Committee was instructed to write to The Christian Publishing Company of London and other publishing companies and secure offers to publish in book form the addresses, discussions, and other matter of importance to the Conference.

VI. Transportation Committee. This Committee has been at work trying to secure reduced rates from steamship lines on the Pacific and from Japan to Korea. While no formal report has been made yet, we understand that very favorable rates have been secured on the lines from Japan to Korea.

The Executive Committee found it advisable to institute a new committee, a committee on Exhibit. This exhibit was defined to mean a display of all kinds of Korean articles. The committee was directed to look into the matter and make an estimate as to what sum of money will be needed to make the exhibit a success. They have not yet reported.

There seems to be a tendency on the part of some persons to take a hypercritical attitude toward the action of the Executive Committee in its preparation for the Conference. We think that this arises from a lack of knowledge of the plans and work of the committee rather than a lack of sympathy with the idea of the Conference. We therefore hope that at this time the matter will be thoroughly discussed, the scope

of the Conference become well understood, and the entire missionary body, throwing aside personal opinions and prejudices wherever there is a majority against them, will unite enthusiastically to make the Conference one of blessing and benefit to every missionary in Korea.
